

archi·tots

FW 25/26 collection

snug

by Portuguese Hands

Step into the world of Archi-Tots,

where architecture meets the boundless creativity of tiny hands and infinite imaginations. This collection is inspired by the foundational principles of design and building, scaled down to a child's perspective.

Here, each piece is an open door to a world of exploration - where curiosity leads the way, and every corner holds a surprise.

This is an ode to the free thinkers, the dreamers, and the creators. Who are still learning how to walk but already shaping entire worlds. It's a celebration of their fearless creativity - the kind that turns cardboard into skyscrapers, paints clouds in purple and finds adventure in the simplest shapes.

Archi-Tots is more than a collection; it's a playground of possibilities. It is the crayon strokes that tell stories and the soft hum of curiosity that whispers, "What if?" It's the joy of building, imagining, and creating without limits. With colours and shapes that inspire wonder, it serves as a reminder of the endless possibilities when we allow little ones to dream big. Because in their tiny hands, every piece becomes a masterpiece.

SNUG | FW25/26 COLLECTION

Inspired by architecture

The new Autumn-Winter 2025 'Archi Tots' collection is a tribute to architecture, as seen through the pure and innocent eyes of young children. A collection that celebrates design and childhood through lines, shapes, and textures that shape the world around us. The curiosity and innocence that invite us to imagine what is yet to come and to look to the future with the creative freedom of those who see infinite possibilities.

Because, for the little ones, the world is still a work under construction.

Colours that build stories

This collection features a carefully thought-out colour palette organised into four groups, each reflecting essential elements of architecture and design.

1. Natural

The natural hues take us to the raw and organic materials of architecture. The greys evoke the cement and clay in a perfectly balanced blend with the soft hues of the sand and the beige and browns inspired by the cardboard and woods.

2. Pinks

A group where different pink nuances are explored, ranging from pale to powdery hues, bringing a touch of delicacy to the collection.

3. Blues

Blues create an interesting bond with natural materials, blending with cardboard and wood colours to create rhythm and contrast.

4. Navy

A classic colour, reinvented in two distinct styles:

Matched with the traditional green of tartans for a touch of English sophistication. Striped with sandy hues, inspired by the relaxed charm of French style.

Drawings and patterns

This collection's patterns come from a creative exercise based on the simplicity and harmony of essential elements, such as lines and dots. From this, designs and patterns rich in personality and meaning were created:

- . Basic lines and shapes gave rise to traditional patterns such as tartans, squares, and stripes, bringing a timeless and versatile touch to the collection.
- . With a more feminine touch, the collection features soft patterns of polka dots and small flowers, inspired by landscape architecture exercises, which add charm and delicacy to the pieces. Of course, a playful touch—the pet—is a must. This time, it's 'the cat', which makes some pieces even more endearing and fun.
- . Additionally, a simple and positive message - 'smile' - enhances the collection's cheerful and optimistic spirit.

The architecture of the materials

Inspired by the cosiness and functionality of well-designed spaces, the Autumn-Winter 2025 collection reflects the harmony between comfort and sustainability. Just like in architecture, every detail was thought out with purpose and precision.

- . The materials are essentially pure, warm, and soft. Knitwear made of wool and the delicate touch of cashmere bring warmth to the pieces.
- . The collection is developed mostly in organic and/or recycled cotton, with soft finishes for a pleasant touch on the skin.
- . This season, we have introduced a special line with the smallest babies in mind, with pieces in 100% cotton fleece, all GOTS certified.
- . In line with our brand values, all the dyes in the collection are made with GOTS certified pigments, using a low water consumption process.

Sales until: until march 9th

Deliveries: end of july beginning of august
